INFO: C,WH

ATTN: - PRODUCTION  
Pennants for CALLICERIS

1. It is requested that 10,000 of each of the two attached pennants be prepared on inexpensive cloth.
2. It is planned to distribute about 2000 of these pennants immediately upon their completion. The remainder will be used on D-Day.
3. LINCOLN objects to the use of red, white and blue because it is vulnerable to communist attack. As soon as CALLICERIS choses a new color scheme, Headquarters will be advised by cable in order that the production of the pennants may begin. The first 500 should be sent to LINCOLN. The remainder should be held pending cable instructions for shipment.
